

JEDI MIND TRICKS

A GUIDE TO THE FORCE

JEDI MIND TRICKS

The origins of Jedi Mind Tricks can be traced back to an ancient prophecy brought to us by the first Force sensitive Elders. This prophecy said that there would be an awakening of the Force amongst humanity in the 21st century. The collective consciousness would begin to shift as a kind of psychedelic renaissance swept the planet...a Rebellion of the Mind. An increase in empathy, love, and compassion for one another would then ensue as the culture began to understand the essence of their true purpose on this planet. This would then set the stage for the next generation of light warriors, or as they are known in the rest of the galaxy: JEDI.

By making use of the medicines of our forebearers, we seek to provide the tools to help catalyze this shift in humanity. It is with this intention that we are committed to making products of the highest quality. We accomplish this through the selective sourcing of our ingredients, our promise to always be organic and vegan, and to consistently test to ensure potency and purity.

We respect and honor the Force that lives with-in and in-forms all life.
May the intrinsic wisdom of these products serve to awaken and empower you,
as you journey to discover the Jedi within.

May the Force be with you!

- The Jedi Council -

JEDI MIND TRICKS

Glossary of Ingredients

Agar Agar - A jelly like substance that is sourced primarily from red algae and is used frequently as a substitute for gelatin to help stabilize and texturize various vegan consumables.

Cacao - The beans from the Cacao fruit that have been minimally processed with no additives. Cocoa, on the other hand, is a processed (usually roasted) chocolate product with a sweetener added such as you would find in a store bought chocolate bar. We source our organic Cacao from the Amazon and blend it with coconut sugar to create the delicious blend of Cocoa you will taste in our bars.

Chaga - This adaptogenic mushroom helps to combat oxidation in the body and lower blood pressure. The high levels of beta-D-glucans have also been shown to have anti-cancer properties.

Coconut Sugar - Provides a healthier impact on your blood sugar levels compared to regular cane sugar due to its trace minerals that help to slow absorption.

Fruit Pectin - A thickening agent that comes from apple pomace (a byproduct of the apple juice industry).

Himalayan Salt - Himalayan salt is less processed than table salt and contains more than 80 trace minerals including potassium, iron, and calcium.

Jedi Spice Blend - Our proprietary blend of psilocybin mushrooms that may include Hillbilly, Penis-Envy, and Blue Meanie strains. A typical beginner dose of dried mushrooms is usually around 1 gram.

Lightsaber Crystals - MDMA (commonly referred to as ecstasy and molly). Benefits include euphoria, increased sociability, feelings of empathy, emotional warmth, openness, and self-acceptance. For most people, a standard dose of MDMA is between 80 and 120 mg. Our Fusion products contain 240mg and for this reason can often be shared by 2 or even 3 people. Our MDMA is always tested to ensure its purity and to guarantee there are no harmful substances present.

Lion's Mane - Praised for its nootropic benefits, the compounds present in these mushrooms help to stimulate the growth of new brain cells and improve depression and anxiety.

Locust Bean Gum - Derived from the Carob Tree, locust bean comprises mostly fiber and is primarily used as a thickening agent. We use this in our gummies to create their plump texture.

Malic Acid - A byproduct of the apple juice industry, we chose this instead of citric acid to help create a more stable texture and flavor and increase shelf life.

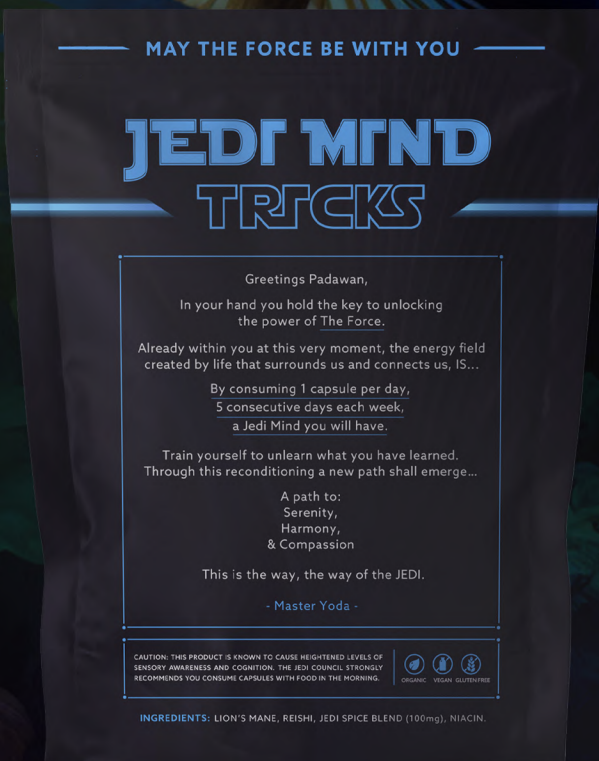

Natural Fruit Concentrates/Extracts - Distilled oils that are used to add a more robust flavor to our gummies. These are made using real fruit juice which is the secret behind our gummies delectable taste.

Raspberry Powder - Raspberries have powerful anti-inflammatory and anti-aging properties. They are very high in nutritional value and rich in vitamins A, C, E, K, and B complex.

Reishi - These mushrooms have been used for thousands of years to help enhance the immune system, reduce stress, improve sleep, and lessen fatigue.

Tapioca Syrup - A healthier alternative to corn syrup that is sourced from the cassava root.

MICRODOSES

MICRODOSES

We spent many months dialing in our formula for these capsules. Ultimately, we decided on a dose of 100mg to ensure our Jedi-in-Training would be able to function throughout their workday.

By pairing our Jedi Spice Blend with Lion's Mane, we help stimulate NGF (nerve growth factor) which serves as a catalyst for Neurogenesis- The birth of new neural pathways within the brain.

We recommend Paul Stamets protocol of 5 days on, 2 days off to allow the brain time to reset our bodies natural proclivity to build up tolerance.

Don't let their size fool you, despite the relatively small dose in these capsules, we have gotten some of our best feedback from this product. Benefits of microdosing include:

- Improved Focus, Concentration, and Mindfulness
- Improved Energy, Wakefulness, and Stimulation
- Cognitive Benefits, such as enhanced problem solving
- Clarity of Mind
- Increased Creativity
- Reduced Anxiety & Depression
- Improved Mood, Optimism, and Outlook on Life

Ingredients: Lions Mane, Chaga, Reishi, Jedi Spice Blend

Jedi Spice Blend:
100mg Per Capsule

GUMMIES

GUMMIES

Voted the best tasting gummies in all of Naboo for 3 years running!

Our organic fruit gummies are made using all-natural concentrates without any synthetic chemicals or dyes (aka food coloring). In addition, we avoid using gelatin (a byproduct of the meat industry) and instead utilize pectin which is derived from the skin of citrus fruits. Attention Padawans: These are dangerously flavorful so be careful not to eat the whole pack or you may find yourself in a Galaxy far, far away!

...

Ingredients: Tapioca Syrup, Cane Sugar, Fruit Pectin, Jedi Spice Blend, Raspberry/Boysenberry Concentrates, Natural Fruit Extracts, Malic Acid, Locust Bean Gum, Agar Agar

Jedi Spice Blend:
4 Grams per Pouch
500mg per Piece

■ 1 PIECE
PADAWAN

■ 4 PIECES
JEDI KNIGHT

■ 8 PIECES
JEDI MASTER

CHOCOLATES

CHOCOLATES

Magic mushrooms and chocolate have paired well together since before the days of the Old Republic. The Jedi Council have long since incorporated this blend into the right of passage that has come to be known as the Jedi Trials. We are very proud to now offer this bar to the public so they may too embark on their own trials of self-discovery.

Our cacao is sourced from Planet Earth in the jungles of the Amazonian rainforest. This bar is for purists and those who wish to feel the effects of the Force without the presence of other psychoactive compounds.

■ 16 PIECES
JEDI MASTER

ENERGY FUSION BARS

ENERGY FUSION BARS

Commonly referred to as a “hippie flip”, we recommend this bar for the Jedi Knights who are already familiar with the properties of lightsaber crystals. The two psycho-active substances present in this bar create a synergistic effect in the body, hence the name: Energy Fusion. This is our strongest product to date and will take you from a Padawan learner to a Jedi Master faster than the Millenium Falcon in hyperspace!

ENERGY FUSION GUMMIES

ENERGY FUSION GUMMIES

Forged in the heart of a collapsing star, these are the most potent gummies in the Galaxy! Our pièce de résistance will tickle your senses in more ways than you thought possible. Try a couple for a sensory game of chance or eat four to ensure you feel the effects of the lightsaber crystals. Gummies tend to take longer to metabolize in the body so we recommend waiting a full hour before taking a second dose- May the Force be with you!
